E. H. PIDGEON,
Buick-Pontiac Motors. Stony Plain.

Stony Plain and District.

Her many friends here will be pleased to learn that Mrs. Gellhaus is recovering from the painful accident which befell her on Friday. While accompanying her husband in looking over the elevator at Brudenheim, she had the misfortune to fall 40 ft. down a shaft. She was picked up unconscious, and owing to her injuries, her life was despaired of at the time. She was taken to Lamont hospital. Along with her other injuries, she received a scalp wound which required fifteen stitches.

Stony Plain ball team is engaged to play Hudson Bay team at Edmonton Beach on Monday next.

There was a seven-hour session at Tuesday's Police Court. Four charged with infractions of the V & H T Act paid \$5 apiece. R. Stych, drunk, \$20 and costs. A. Holoff, assault, case adjourned. Geo. Meisner, charged with being intoxicated while in charge of a motor vehicle, was given 10 days at the "Fort." Notice of appeal was given. Lawyers H. A. Mackie, Michajluk and J. White, Edmonton, were present.

Presentation to Local Pastor

Pastor E. Eberhardt was the recipient on Saturday of congratulations from his numerous friends, it being the 35th anniversary of his induction as pastor at the St. Matthew church. A service was held at the church, at which were present a number of clergymen of the Missouri Synod, and of the congregation. During the celebration, the pastor was presented with a purse of gold.

Benefit Concert and Dance.

Monday next, Sept. 2nd, (Labor Day, is the date of the big concert and dance in Stony Plain. The affair is for the benefit of the Hicks family who lost their all in a recent fire. A goodly number of first class artists have tendered their services for the concert. Barth's orchestra will supply the music for the dancers. A good time is assured all who attend.

Lutherans Celebrate in Edmonton.

Stony Plain and district was well represented, on Sunday last, at the celebration in Edmonton, when the Lutherans of Missouri Synod observed a Catechism Jubilee. This year marks the 400th anniversary of the two Lutheran Catechisms. In the year 1529 Dr. Martin Luther, realising the need of fundamental instruction in the Christian doctrine for the laity, edited these books, the smaller of which soon found its way to the hearths and hearts of many people, first in Germany and then in other countries.

A German service took place at St. Peter's church, in which Rev. R. F. Holtzen of Vancouver was the principal speaker.

At 11 a.m. a service in English was held at Grace church the pulpit being occupied by Rev. H. Kuring, Missionary from Alaska.

In the afternoon a joint took place in Memorial hall, at which Rev. Wm. Grother of Milwaukee, Wisconsin, member of the Board for Inner Missions for North America, was the speaker.

The High Cost of Sickness

Ten billion dollars a year, or one-ninth of the annual income of the United States, goes in that country to pay for illness or to repair damages inflicted by it, according to one responsible authority quoted in a recent issue of "The Literary Digest."

It is doubtful if in Canada the necessary information is available and data compiled to enable an estimate to be made of the costs of sickness to the Dominion as a whole. Probably in this more northerly climate and less congested centres of population, sickness is not quite so prevalent, although, on the other hand, owing to the distance which many of our rural population are from doctors, hospitals and nurses, the average cost per patient may be somewhat higher than across the line.

Some of the figures quoted by "The Literary Digest" as applicable to the United States may, therefore, be not so very far out in their relation to Canada. At all events, they are arresting and thought provoking.

It is stated that the average individual between the cradle and the grave spends one-fourth of his time in bed because of incapacitating illness, and that for the same reason the average worker loses two per cent. of his time, or a fraction more than seven days a year.

The people of the United States, it is asserted, are paying for the treatment of illness not less than \$2,500,000,000 a year, or approximately \$100 per family. In addition there is an estimated annual loss of \$2,000,000,000 as a result of decreased wage-earning capacity. And there is a still further permanently interrupted wage-earning capacity through preventable deaths, estimated to be \$6,000,000,000, making the total annual cost of disease to the people of the United States, \$10,000,000,000. The total annual income of the country is about \$90,000,000,000.

Can any people afford to pay such a staggering sum, constituting, as it does, such a large proportion of their total income on such a non-productive, destructive thing as disease and preventable deaths? The United States census returns makes answer. According to this official compilation, 49.7 per cent. of patients in general hospitals, in 1923, were able to pay in full; 19.3 per cent. of patients paid in part, and 31 per cent. patients paid nothing. While no reliable data is available as to the extent that patients paid for the services of physicians, it is reasonable to suppose that physicians were paid at much the same ratio as the hospitals. If so, then only about one-half of the people paid in full for services required as a result of illness; 20 per cent. paid in part, while 30 per cent. paid nothing.

The conclusion reached is, that for the great mass of families with incomes below \$1,200 a year, there is only one of two alternatives when sickness overtakes them—medical charity or financial tragedy.

The further conclusion is reached that there are just two ways for lowering the cost of medical care. One way is by the prevention of unnecessary disease—certainly the best and sanest way—and the other way is through the use of an organized medical service.

An organized medical service, it is pointed out, can be offered at financial returns considerably smaller than the cost would be if the patient obtained the same service from unrelated practitioners and specialists. An organized service makes possible economies which are not possible in an unorganized service. Certain examples are cited:

Through an organized medical service, some of the large universities are able to render a thoroughly modern medical service, including hospital care, to their students for from \$9 to \$12 per student a year.

The Endicott-Johnson Corporation with its 16,000 employees and their families represent a population of approximately 60,000 people. The Corporation gives these employees and their families a medical service which includes the full-time services of 27 physicians, 3 dentists, 1 X-ray technician, 51 nurses, and 2 pharmacists, for an annual cost of \$6 to \$7 per capita for the whole industrial population.

The industrial settlement of Roanoke Rapids, North Carolina, composed of workers of five cotton mills and one paper mill, gives a modern, efficient medical service including hospital care, home visits, and public-health nursing, for \$23.00 per family, or at approximately \$9 per capita.

The insurance principle is urged as the remedy, and an effective one, for providing adequate medical care for a very large percentage of the people, and it is believed that insurance companies will, in time, embrace it as a part of their protective programme.

It is estimated that more than 1,000,000,000 stars have already been seen through powerful telescopes.

It is estimated that there are 41,000 thunder storms occurring daily on the earth.

Beauty may be merely skin deep, but it is nearly always effective.

The art of pottery dates back as far as we can trace the human race.

Reduce the Acid

Sick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach serves as over-stimulated. Too much acid makes the stomach and intestines sour. Atrial kills acid instantly. The best form is Phillips' Milk of Magnesia, because one harmless, tasteless dose neutralizes many times its volume in acid. Since its invention, 50 years ago, it has remained the standard with physicians everywhere.

Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will always know what to do. Crude and harmful methods will never appeal to you. Do prove this for your own sake. It may save a great many disagreeable hours. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acidity. Each bottle contains full directions—any druggist.

Canada Wild Life

Shipped To Ireland

Sent By Express To Zoological Gardens At Dublin

Noah's Ark on a small scale passed through Montreal recently in the form of a shipment of Canadian wild life on the way from Toronto to the Zoological Gardens, at Dublin, Ireland.

This special shipment was handled by the Canadian National Express, the crates being transferred from Bonaventure Station to the S.S. Lord Antrim, which carried bird and beast to the Irish Free State. The consignment consisted of two bears, one eagle, two woodchucks, two raccoons and four prairie dogs.

DO YOU VALUE HEALTH?

Sickness Almost Always Due To Weak, Watery Blood

If your health is poor; if you are pale, nervous and easily tired; if you suffer from headaches or backaches; if there are touches of indigestion, or twinges of rheumatism, you may depend upon it that these symptoms come from an impoverished condition of the blood, and that unless this condition is remedied a complete breakdown may follow to any who are in this condition. Dr. Williams' Pink Pills will be found the perfect medicine. The whole mission of this medicine is to build up the blood, promote appetite and good digestion, and strengthen tired, frayed nerves. Men and women alike benefit through the use of this medicine. Therefore if you are weak or ailing, give Dr. Williams' Pink Pills a fair trial and you will be pleased with the beneficial results that will speedily follow.

Among the thousands who have found Dr. Williams' Pink Pills a real blessing is Mrs. Geo. M. Andrews, Halifax, N.S., who says:—"My first experience with Dr. Williams' Pink Pills was as an anemic young girl, when they completely restored my health. Then a few years ago I became pale and run down, and my husband got a supply of the pills for me. I gave them a good trial and when my baby was born she was a big healthy baby and I did not have a day's sickness. My friends all tell me how well I look now. I certainly feel that way, and I give all the credit to Dr. Williams' Pink Pills. I hope my experience will help some other woman who needs a good medicine."

You can get the pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Add New Export To Canada's List

British and German Dealers Repeat Order For Fresh Salmon

A new product has been added to the exports of Canada to Britain and Germany in the shape of fresh Gaspe salmon. A few weeks ago a trial shipment of fresh salmon, frozen by a new brine solution leaving the fish as fresh as when it was taken out of its native waters, was sent to British and German fish dealers, who were so pleased with the result, that an order for 25 tons soon followed. Many more orders are expected.

Choked For Air. Some little irritant becomes lodged in the bronchial tubes, others gather, and the awful choking of asthma results. Nothing offers quite such quick and positive relief as Dr. J. D. Kellogg's Asthma Remedy. The healing, soothing smoke or vapor inhalant, clears the passages and gives untold relief. It has behind it years of success. It is the sure remedy for every sufferer.

Due To Several Reasons

Never before has Saskatchewan been able to get through the work of the harvest season without help from the East. It will be possible this year for the first time because of the relatively small crop, use of labor saving machines such as combines, and the increase in western industrial population.

A Prime Dressing For Wounds.—In some factories and workhouses carbolic acid is kept for use in cauterizing wounds and cuts sustained by the workmen. Far better to keep on hand a bottle of Dr. Thomas' Electric Oil. It is just as quick in action and does not scar the skin or burn the flesh.

Messages By Heliograph

Heliographs have been successfully used for the regular transmission of messages between Prince Albert, Saskatchewan, and a station in the Prince Albert National Park over a distance of 30 miles.

Keep Minard's Liniment always handy.

W. N. U. 1904

New British Liner

"Britannic" Of White Star Line Is Largest British Motorship

The twin-screw motor passenger liner "Britannic," built by Messrs. Harland & Wolff, Limited, for the White Star Line, has been successfully launched from the builder's North Yard, Belfast.

The "Britannic" is intended for the Liverpool-New York service of her owners, the White Star Line, and will be a notable addition to the White Star fleet, being the largest British motorship.

The accommodation provided for the 1,550 passengers (cabin, tourist, and third class), will set up a new standard on this route, noteworthy features being the swimming pool and tennis courts in the cable class, and children's playrooms and elevators in the tourist and third class accommodation. The size of the "Britannic" has given ample opportunities for apocryphal planning and efforts to design in the cabin class public rooms; and the impression of restricted space so common on board ship has been very effectively eliminated.

The cooking throughout the ship is carried out electrically, and this not only includes the main ranges but such supplementary appliances as grills, roasters, fish fryers, salamanders, griddle plates and hot presses. In this connection the bulkhead oven, together with the oven in the confectioner's shop, is also electrically operated.

It is expected that the "Britannic" will be the most popular ship sailing out of the port of New York during the tourist season. Never before has the tourist of moderate means been so catered for by a steamship company, and the opinion of shipping men is that the White Star Line are to be congratulated on the effort they have made by means of the "Britannic" to cater to the tourist who cannot afford the money demanded for the first class ships, and it is felt that a cabin class ship, such as the "Britannic" will fill a very necessary place in the shipping life of New York.

Wireless For Chateau Laurier Hotel

Special wireless and broadcasting and receiving equipment in the Chateau Laurier Hotel, in Ottawa, the tourist season. Never before has the tourist of moderate means been so catered for by a steamship company, and the opinion of shipping men is that the White Star Line are to be congratulated on the effort they have made by means of the "Britannic" to cater to the tourist who cannot afford the money demanded for the first class ships, and it is felt that a cabin class ship, such as the "Britannic" will fill a very necessary place in the shipping life of New York.

SHIP YOUR GRAIN

— TO —
McBean Bros.

Crop conditions the world over appear to be unsatisfactory this year, so much so that we consider it probable that the wheat harvest in the world will be less than last year's. It is our opinion, given after careful study of the world conditions, that the wheat harvest will be worth today \$2.00 per bushel with considerably higher prices later on.

Assuming that the importing countries take \$50,000,000 bushels, which is a moderate estimate, as last year they took 27,000,000 bushels, and European crops this year are short of last, we have every indication of shortage in supplies before another crop is harvested. For the reason we look for wheat to sell at \$2.25 per bushel, barley at \$1.25, and oats at \$1.00.

By shipping your grain to us you can obtain a substantial advance, and can then hold for a favorable market.

Winnipeg, August 15, 1923.

UNIVERSITY OF MANITOBA WINNIPEG

Historic Sites Board Have Marked For Perpetuation Another Group of Historic Places

The Historic Sites and Monuments Board of Canada met at Ottawa recently and marked down for perpetuation another group of historic sites.

One hundred and twenty-nine such sites have been marked with a permanent monument since the board commenced its labors in 1919. These marks stretch from the international border to the Arctic, from the Atlantic to the Pacific. There is a wooden pillar to mark the site where Sir Benjamin Franklin last camped; there are monuments large and small from monoliths to cairns, from pillars to tablets.

Only last year a monument was unveiled to mark the landing of Jacques Cartier at Ile aux Coudres on September 6, 1535. At this place was held the first Christian service in the land of Canada.

At the recent meeting of the board 122 other sites were reviewed and several recommendations were made for immediate markings. Among these the outstanding ones are:

Wolfe's Landing, Galarus Bay, Cape Breton, where Wolfe's brigade landed on June 8, 1758.

First coal mine in Cape Breton—the site of the first regular coal mining operations in America, begun by the French in 1720.

Fort Ste. Anne, Cape Breton: site of an early settlement and Jesuit Mission established by the French in 1620.

Fort St. Peters, N.S.: site of a fortified post and trading station built by the French in 1650.

Minto coal mine, N.B.: to commemorate the discovery of coal by the French near the present town of Minto, soon after their occupation of Acadia.

Chamblay Road, P.Q.: the first road built in New France in 1660.

King Mountain, P.Q.: site of the first triangulation station of the geodetic survey of Canada, established in 1905 about 9 miles north of the City of Ottawa.

Quebec Seminary, Quebec: site of the first educational house in Canada, established by Laval in 1663.

The Normandale Furnace, Normandale, Ont.: founded in 1818 and operated until 1853.

Kingston, Ont.: commemorating the treaty signed with the Mississauga Indians, 1793, whereby a large tract of land in eastern Ontario was purchased for the settlement of United Empire Loyalists.

Fort Erie, Ont.: commemorating the enterprise and courage of the men of the Royal Navy and the Royal Marines in capturing the United States ships of war, Ohio and Somers, in the Niagara River, Aug. 12, 1814.

Bay of Quinte Carrying Place: commemorating the treaty concluded with the chief of the Mississauga Indians in 1787, by which a large tract of land in western Ontario was ceded to the Crown.

Quebec, P.Q.: to commemorate the beginning in 1885 of the work on the Collins overland telegraph line, intended to link America and Europe by way of British Columbia, Alaska, Behring Straits and Siberia.

Fort Prince of Wales, Churchill, Man.: the most northerly fortress on the American continent, built by the Hudson's Bay Company in the years from 1783 to 1787 to safeguard the harbor.

"What is the matter with your little brother?"
"He can't count, and he has eaten more apples than he can hold."

Horticulture On the Prairie

Experimental Station At Morden Shows What Can Be Done

A visit to the Morden, Manitoba, Experimental Station at this season of the year and indeed until the autumn frosts arrive, affords a rare treat to those who are interested particularly in fruit and vegetable crops. Apples, plums, cherries, grapes, strawberries and cane and bush fruits are grown in large quantities and in many varieties. Visitors will learn much to their advantage with respect to varieties worth trying at their own homes and will see the effect of a shelter belt in growing garden crops. The flower borders and beds present a blaze of colour and afford many useful lessons in varieties of the gladiolus and many other flowers and the best methods of their cultivation. The report of the Morden Station, published by the Department of Agriculture, Ottawa, if reviewed in advance of a visit would greatly help the visitor to appreciate the things he would see and to systematize the study that his visit would afford.

Winnipeg Newspaper Union

SUBTLE CHIC

A claret-red caftan crepe for theatre, dining and bridge that expresses Paris chic in modified Princess silhouette. The long waisted bodice with pointed yoke front and back is beautifully molded to create soft slender effect through hips. The attached flaring circular skirt dips smartly at sides and back. The pointed treatment at centre-front is interesting detail. Style No. 597 that comes in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust, is made with 4 yards of 36-inch material in the medium size. It is captivating in black chiffon for dinner wear, made with or without sleeves. White chiffon is very smart and flattering to sunken skins. Flowered, chiffon, figured, chiffon, cotton voile, georgette crepe, crepe Elizabeth, crepe de chine and crepe satin also appropriate. Pattern price 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Movie Stars on C.P.R.

Vilma Banky, favorite star of the movies, travelled Canadian Pacific to Montreal recently from Boston, to appear at a local theatre that was showing her latest release "This Is Heaven." Rod La Roque, her husband, took advantage of her visit to join her in Montreal, also coming by C.P.R. The day previous to her arrival, Victor McLaglen, hero of "What Price Glory?" travelled by C.P.R. to Montreal. Thousands of movie fans welcomed the stars at the Windsor Street Station, Montreal, on their arrival.

Bought Lower Grade Wheat

European Importers Took Large Quantity At Attractive Price

During the 12 months ended July 27, 1929, world shipments of wheat and flour amounted to 917,297,000 bushels as compared with 792,608,000 bushels for the previous corresponding period.

In that year of lower prices ex-Europe became a more prominent figure in World Trade. It absorbed about 220,000,000 bushels which was approximately 90,000,000 bushels greater than the year before. Considerable quantities of this was low grade wheat which, however, was of good milling and baking quality and was readily taken by ex-European importers at the attractively low prices.

Somebody Has To Pay

"Farm products cost more than they used to, I suppose," said a city visitor. "Yes," replied the farmer, "When the farmer is supposed to know the botanical name of what he's raising, and the entomological name of the insect that eats it, and the pharmaceutical name of the chemical that will kill it, somebody's got to pay."

"I can't understand it, madam. The last dozen I sold you were the very best Empire eggs."

"Yes, but are you sure it wasn't the Roman Empire?"

Four Research Projects Are Under Way With Object Of Improving Wool and Mutton

Crop Almost Certain

On Summer fallow land

This Cannot Be Said Of Spring Or Fall Ploughing

This year of extreme drought has illustrated clearly the fact that summerfallow land is almost certain to produce a crop, while spring ploughing, and even fall ploughing, are not. Throughout the prairies, where damage from lack of moisture varies from district to district, it has become plain that those farmers whose acreage is sown mainly on spring ploughing, will finish the season relatively in poorer condition. And it is noticeable in what cases there are of crops being ploughed or pastured, that it is the spring ploughing, or occasionally fall ploughing that is abandoned before summerfallow.

Summerfallow acreage, while it shows some decrease over 1928, is still a substantial part of this year's sowing and new breaking is larger in Alberta and Manitoba. The following table gives the estimated acreages this season under summerfallow, spring ploughing and fall ploughing in the three provinces.

Manitoba. 1,519,000 76,000 2,840,000
Saskatchewan. 5,679,917 524,637 2,967,000
Alberta. 2,732,000 850,000 70,000

While a certain amount of abandonment of sown fields is taking place this season, there are some benefits which will tend to follow. Land ploughed up at this stage of the growing season will have almost as good a rest as genuine summerfallow, and should be more fertile next year. And farmers are also taking the opportunity of killing weeds by consistent ploughing of land where the natural strength of a crop does not preclude them. On the whole next spring there should be more land in good condition than for several years, especially in those areas badly affected by drought at the present time.

Employees Following In Father's Footsteps

Second and Third Generation Working For Canadian National Railways

The transfer of the motive power shops of the Canadian National Railways from the old to the new building at Point St. Charles, Montreal, has revealed that out of some 1,422 employees on the register of the old building, 167 were of the second generation, 18 of the third generation, and two of the fourth generation of present or former workers in the same place.

Berlin, Germany, claims to have the oldest continuously operated automobile factory in the world.

It takes a mighty little shove to send some men downhill.

"They're Off!"

Over 2,000 employees of the Canadian Pacific Angus Shops with wives and families took their August Bank Holiday picnic at St. Jerome, near Montreal, early in August. The famous fair at Hampstead Heath, London, held every year, was reproduced in the gathering which is the great event of the year for the Shops. Here is shown the start of the Married Women's Race with an entry of thirteen contestants. Every conceivable game was represented from the sliding ladder to a typically English old-fashioned "cokenut" day. Prizes ranged from tennis rackets to watches and including many serviceable articles of wearing apparel. Eighteen races were run off.

To improve both Canadian mutton and wool by establishing the required type of sheep, four research projects involving the Federal Department of Agriculture, the University of Saskatchewan, the University of Alberta, and the New Wool Research Laboratory being set up by the National Research Council at Ottawa, were authorized by the growers' section of the council's associate committee on wool at Ottawa.

In the belief that definite improvements can be made over the present Canadian range varieties and valuable leadership given to ranchers by providing a basis for accurate advice to that end, Prof. J. P. Sackville, University of Alberta; Prof. A. M. Shaw, University of Saskatchewan; and W. H. Fairchild, Dominion Experimental Station, Lethbridge, forming a sub-committee, made the proposals that were adopted by the session.

Specially selected fine-wool range ewes, numbering probably 200, to be used as the foundation of a carefully planned experiment in grading and cross-breeding, will be gathered at Saskatoon by the University of Saskatchewan. Stud rams of several long wool breeds may be imported from England or elsewhere. The now better known methods of genetics that will be applied in experimenting with them are expected to show results in a short time.

At the Lethbridge Experimental Station, tests of the Corriedale sheep so well established in New Zealand, will be continued. Hardiness and adaptability to range conditions are to be determined.

General environment conditions including, where feasible, such factors as temperatures, humidity, rainfall, age of sheep and feeds available will be studied by the University of Alberta, at Edmonton, and data along similar lines will be sought from the sheep growing areas of Saskatchewan and British Columbia as well. These conditions, it was noted, had considerable influence on the character and amount of wool produced.

For the fourth project co-operative work is to be undertaken with one or more ranchmen, between 500 and 1,000 ewes of uniform type being bred to Corriedale rams. Information as to the wool produced will be studied in the wool laboratory that is being established in temporary quarters here pending erection of the new national laboratories building. Results of British researches in wool are being made available to the council's officials.

Announcement was made at the meeting that the full wool committee would hold its next meeting in Toronto, on November 18, the day before the opening of the Royal Winter Fair.

Those present in addition to the sub-committee were: Dr. H. M. Tory, chairman; Dr. J. H. Grisdale, Deputy Minister of Agriculture; A. A. MacMillan, Dominion Livestock Branch; G. E. Rothwell, Dominion Animal Husbandry; Prof. R. G. Knox, Ontario Agricultural College, Guelph, Ont.; W. H. J. Tisdale, assistant manager, Canadian Co-operative Wool Growers, Toronto; and E. E. Laith, secretary.

About the only steps remaining that ecclesiastics may take to protect their rights are fast ones.

"Pardon me, but we have certainly met before."
"Heaven! How much do I owe you?" —Sondra Gilman-Sirix, Stockholm.

Church At Jasper Is Soldier's Monument

Gift Of English Lady In Memory Of
Her Son

Unique among the churches of Canada is the little church of St. Mary and St. George, of Jasper, which was consecrated recently by the Bishop of Edmonton. The building, a beautiful structure of stone and stucco, with a tiled roof, was built at a cost of \$17,000 from a design by A. H. Calderon, of Edmonton, and is a gift to the parish from a lady in England who wishes her name to remain anonymous.

It was presented in memory of her son who was killed in war, and beneath the corner stone, which was laid last year by His Excellency The Governor-General, lies the testament which was found on the young man's body when he was carried out of "No Man's Land." The furnishings and fittings of the church were also the gift of the unknown donor, while the bell was presented by Viscount Willingdon.

SUNDAY SCHOOL LESSON

SEPTEMBER 1

EZRA'S RETURN TO JERUSALEM

Golden Text: "The hand of our God is upon all them that seek Him, for good."—Ezra 8:22.

Lesson: Ezra 7.1 to 8.36.

Devotional Reading: Psalm 63.1-8.

Explanations and Comments

With the Permission Of Artaxerxes, Ezra Goes To Jerusalem, 7-10. —Ezra was a descendant of Seraiah, the chief priest during the reign of the last king of Judah, and traced his ancestry back to Aaron. He was a ready scribe of the law within the Lord God of Israel had given. He studied the law, and not only copied it but interpreted it. He requested permission from King Artaxerxes to go to Jerusalem, and this the king granted. With a company of Jews who wished to settle in Judea, and with priests, scribes and singers for the temple service, porters to keep the temple gates (1 Ch. 9:17), and Nehemiah, servants for the temple (1 Ch. 9:2), he left Babylon the first month (Nisan, March-April), of the seventh year of King Artaxerxes, and reached there in the fifth month (Ab, July-August) after a journey of nearly four months. His purpose in going to Jerusalem was to teach the statutes and the words of the law to the people there. As for himself, he had "set his heart to seek the law of Jehovah," and what was more, "to do it."

Between the knowing what should be done and the doing it, there is a gap; too often a gulf never bridged. Mere knowing about others' needs or the expression of real sympathy and needs does not avail; the true philanthropist is one who knows and sympathizes and does "deeds of loving-kindness." In the words of Horace Bushnell, "or if you never find the time for doing it, have the frankness to confess that your good intentions are hollow and worthless."

The One Voice. Commentary states that the Jews who remained in Babylon, and who were surrounded by a population wholly heathen, were marked off from their neighbors by a much deeper line of cleavage than were the Jews of Palestine, and a higher standard of religious devotion prevailed among them; consequently, when the religious laxity of the people of Jerusalem became known at Babylon, Ezra was sent to inquire into it (verse 14), to introduce reforms, and by authority of the Persian king, to enforce the observance of the Law by means of penalties (verse 26). Artaxerxes not only granted Ezra's request, but also gave him much gold and silver for the temple, and also a letter in which he directed his officers in Judea to do whatever Ezra might ask. "Blessed be Jehovah, the God of our fathers," exclaimed Ezra, "who hath put such a thing as this in the king's heart, to beautify the house of Jehovah; and hath extended loving-kindness unto me."

Muscular Rheumatism Subdued.—When one is a sufferer from muscular rheumatism he cannot do better than to have the region rubbed with Dr. Thomas' Electric Oil. Let the rubbing be brisk and continue until ease is secured. There is more virtue in a bottle of it than can be fully estimated.

The museum of the American Indian, in New York, grew out of the purchase by George G. Healy of a Navajo Indian artist.

If one be troubled with corns, he will find in Holloway's Corn Remedy an application that will entirely relieve suffering.

Why don't you marry Helen? Are you afraid to pop the question? No; afraid to question the pop.

Minard's Liniment For Summer Colds.

AN OUTSTANDING EXHIBIT

In his address before the Rotary Club, during the Calgary Exhibition and stampee, Hon. J. D. McGregor, Lieutenant-Governor of Manitoba, for many years Canada's most outstanding live-stock man, referred especially to the demonstration put on by the C.P.R. Supply Farm, of Strathmore, which emphasized productive possibilities of good dairy cows. Mr. McGregor said that he considered it to be the best, from an educational point of view, he had ever seen at any live-stock show.

As shown in the accompanying photograph, five cows of various ages were used to emphasize that high production increases profits. Two mature cows and one four-year-old heifer, one three-year-old heifer, and one two-year-old heifer were included in the group. Each of these had finished an official record within five months, and their total production for 365 days was 127,583 lbs. of milk. The first cow to the left, "Strathmore Sylvia-89349" by producing 29,371 lbs. of milk was recognized to be the highest milk producer in Canada to finish an official yearly record during the past year and a half. The second cow, "Belevedere de Kol Ruby, 82,632," finished on June 14th, with

27,892 lbs. of milk, and immediately was shipped to Brandon, where she won second prize in very strong competition. Her yearling heifer was first at Brandon, Calgary, Edmonton, Saskatoon and Regina exhibitions, and was Junior Champion at Calgary and Regina.

The next is "Valley Farm Francy Segts-154139." She produced 22,922 lbs. of milk, and 830 lbs. of butter, which is 2,357 lbs. of milk and 223 lbs. of butter more than the best two-year-old record reported in Canada in 1928.

The four-year-old next in line Strathmore Texaline Sylvia-111946," produced 23,580 lbs. of milk and 1,082 lbs. of butter; while the one on the right, "Strathmore Lassie Sylvia-130501," as a three-year-old produced 23,568 lbs. of milk and 958 lbs. of butter.

According to the Dairy Commissioner of the Province of Alberta, the average dairy cow in that province produces 3,850 lbs. of a per cent. milk. These five cows produced as much as 32 average Alberta dairy cows. Their milk, sold to the Union Milk Co., Calgary, at regular dairy-men's prices, brought \$3,214.10, or an average of \$642.82 per cow. This

revenue returned more than \$475.00 per cow above feed costs.

The milk cans in the picture were used to illustrate the amount of milk produced in one year by Strathmore Sylvia. About one-sixth of the cans are visible in this picture. Altogether there were 479 cans—representing a production of 2,987 gallons of milk. This exhibit attracted a constant stream of visitors who spent a good deal of time studying the material attractively displayed on show cards.

There are approximately 600 purebred Holsteins in the famous herd at Strathmore, Alberta. The show herd of 15 head won 100 first prizes at eight major exhibitions in 1928. Under the advanced registry system of the Holstein-Friesian Association of Canada, there are 40 Gold Medal and 73 Excellent cows in this herd. This is the largest number of Gold Medals in any herd in the world.

Some very distinguished visitors happened to come along just as this photograph was about to be taken. The two ladies are Dowager Lady Pentland and her daughter, Hon. Miss Sinclair. The gentlemen are Lord Pentland and, on the left, George H. Jones, manager of the Strathmore Farm.

WORLD HAPPENINGS BRIEFLY TOLD

Canada was the principal country with which the United States traded in June, leading all the other countries in both exports and imports.

Erich Remarque, author of "All Quiet on the Western Front," may be the recipient of the next Nobel prize for literature, it was reported from Stockholm.

The British Columbia Government, recently announced the distribution of liquor profits amounting to \$682,919.48 covering the six-months' period ended March 31.

The first repercussion of the small crop in western Canada was felt at Regina, when the John Gooding Thresher Company reduced its operating staff by one-third.

Hon. Auley Morrison, Chief Justice of British Columbia, was among those who received the degree of doctor of laws at the convocation exercises, at Dalhousie University, on August 29.

Closer co-operation in air transport matters throughout the world began between Great Britain and France, was discussed at a meeting of Lord Thomson and Laurent Eynac, respective Ministers for Air.

Protect the child from the ravages of worms by using Mother Graves' Worm Exterminator. It is a standard remedy, and its use has enhanced its reputation.

Inside Information

Science has perfected a tiny camera that can be lowered into the human stomach to take sixteen pictures of the interior department from all angles. This is getting an inside view of the situation. Afterward the pictures may be enlarged.

Had Diarrhoea Bowels So Active Feared For His Life

Mrs. S. J. Jago, Canobie, N.B., writes:—"My little boy, when three years old, had a severe attack of diarrhoea. The bowels were so active, and he vomited so much, I feared for his life. I tried many medicines, but he was always getting worse. A friend told me of

and after the second dose I saw an improvement. I gave him almost half a bottle and he was completely relieved. "I have used it for the other children, and my husband and myself. My husband gives it great praise, and when he goes away from home to work he always takes a bottle with him."

Put up only by The T. Milburn Co., Ltd., Toronto, Ont.

W. N. U. 1899

Development Of Peace River

Country Has Gone Ahead Rapidly In Last Few Years

The first shipment of grain out of the Peace River District, was made up of three cars of wheat hauled by team 85 miles from Vanerna to Reno. There were no highways or telephones, and only two small rural schools then. Today, there are 1,600,000 acres under cultivation, with a prospective crop of 15,000,000 bushels. Population has increased from 3,000 to 50,000; there are schools, churches, flourishing stores, elevators, electric light plants, highways and telephones.

Snow Houses a Myth

Few Eskimos Have Ever Seen Or Heard Of One

Eskimos are frequently seen "sweating under" powerful sun. The general idea of Eskimos and all inhabitants of the Arctic Circle is that they live in conditions of eternal winter. Quite wrong Mr. Stefansson, the Arctic explorer, has been telling a Cambridge audience. The wild flowers of the Arctic are exquisite, he says, and very few Eskimos have ever seen a snow house—or heard of one except at school!

Too uplash—the highbrow.

Test For Your Eyes

Normal Vision Sees Objects Clearly Fifty Yards Away

Are you 'good at judging 'distances'? It is said if you have normal eyesight you should be able to see a man's eyes at fifty yards; at one hundred yards you may see the buttons on his coat; and at three hundred yards you may just see his face; while the color of his clothes can be distinguished at four hundred yards. Of course, on a clear day, things look nearer than when the day is cloudy.

Light and airy—the flighty blonde.

WINDOLITE

The Improved
Glass Substitute

MADE IN ENGLAND

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandas, schools, clubs, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 ozs., while a square yard of glass, of ordinary thickness, weighs about 120 to 140 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

RUSO-CHINESE WAR SITUATION BECOMING GRAVE

Shanghai.—The Nationalist Government semi-official Tachung News Agency issued a despatch under a Harbin date line, saying "although no major developments have taken place on the Manchurian frontier during the past two days, both China and Russia are quietly preparing for war."

The Chinese authorities declared martial law throughout the entire length of the Chinese Eastern Railway as the result of the "increasing gravity of the situation as well as because of a number of incidents along the railway such as the derailing of trains as well as the recurrence of sabotage by both Russians and the Chinese Communists."

The despatch added that a thorough provincial government had ordered two artillery brigades to proceed to the eastern border of Kirin province to oppose alleged raids by Russian troops. Telephone communications from Harbin to the east have been interrupted and Communist agitators are believed guilty.

A military communique considered to have an ominous aspect, was issued by the semi-official news agency Tachung, stating: "Reliable circles indicate that the Manchurian situation may be expected soon to assume a different aspect, inasmuch as the Soviet military demands have failed to produce the desired effect."

The official Nationalist News Agency has issued a bulletin under a Mukden date, saying:

It is learned that some Japanese military officers were found within the Soviet army. It is reported that the Soviet and Japan have entered an agreement whereby Japan promised to assist Russia, the latter promising to give up fishing rights in North Saghalien in favor of Japan. In addition it is believed that Japan is strongly opposed to the powers' intervention in the Sino-Russian crisis which move the United States is believed to have attempted.

Few Harvesters From Coast

Less Than Five Hundred Have Left Vancouver This Season

Vancouver.—With a lighter crop and new labor-saving machinery in use on the prairies, only 432 harvest laborers have left Vancouver on the harvest excursions so far this season. It is announced by J. P. McVey, superintendent of employment. In addition 125 have come from New Westminster and some from other centres. So far only those with jobs guaranteed have been granted the \$10 rate, but as the extent of the harvesting operation grows a few others will be allowed to take their chance of employment.

Boys Canadian Cars

Australia Good Customer But Buys Cycles From England

Canberra, Australia.—Out of 100,000 complete motor cars imported to Australia in the 12 months ending June 30, 66 per cent. were from the United States, 23 per cent. Canadian, and the remaining 11 per cent. English.

The scales were turned when it came to motor-cycles, however, for more than 80 per cent. of the motor-cycles imported in the 12 months came from Great Britain.

Resigns Post

Saskatoon, Sask.—Forced by ill-health to return to his old home at Blyth, Ont., Frank Metcalf, Dominion fruit inspector in Saskatchewan for 18 years, is being succeeded here by J. G. de Jong, of Winnipeg. Mr. Metcalf was presented with an address and purse of gold by fruit men of the city.

Prepare To Evacuate Rhineland

Brussels.—Belgian troops are preparing for evacuation of the second Rhineland zone on September 15, as an outgrowth of The Hague conference, and as a token of the conciliatory spirit of Belgium toward Germany.

W. N. U. 1800

Britain and France Sure To Co-Operate

Reparations Problems Will Not Affect Friendship Says Hon. Jean Knight

Vancouver.—Problems resulting from the failure of Germany to meet her reparations payments to those countries which suffered great losses as a result of the World War will be settled so far as Britain and France are concerned, in a spirit of understanding and co-operation, declared Hon. Jean Knight, first minister of France to Canada, when he addressed a luncheon meeting of the Canadian Club here.

"The guest of honor said that although reparations problems offered great difficulties to the nations affected directly by these payments, he was sure that the friendly co-operation of Britain and France would continue."

"Equality and justice based on a thorough understanding will mark the settlement," he declared.

Making Attempt To Overtake Zeppelin

French Air Ace Has Ambition To Beat Dirigible To Lakehurst

Le Bourget, France.—Dieudonne Coste, French air ace, has started on a flight around the world in pursuit of the German dirigible Graf Zeppelin, which he hoped to overtake and pass before she could reach Lakehurst, N.J., and New York. Coste, French aviator, who has already made a flight around the world since he crossed the south Atlantic ocean in 1927, told an intimate friend that he would attempt to break the world's non-stop distance record for airplanes on the first stage of his race around the world with the Zeppelin.

Facing Grain Shortage

Russia Will Have To Import Wheat Says Soviet Official

London, England.—A wheat shortage in Russia was indicated today in an Exchange Telegraph despatch from Moscow, via Riga.

The despatch said that Michael Kalinin, president of the Soviet Central Executive Committee, despite his previous prediction that the Soviet harvest would be 5,000,000 tons greater than in 1928, was now reported to have said that Russia must import 50,000,000 roubles worth of grain or force the peasants to work harder.

The situation was declared to be precarious because of a prolonged drought in the south Ukraine, Volga and Caucasus regions.

Ottawa Will Purchase Serum From Winnipeg

Many Cases Of Infantile Paralysis Make Action Necessary

Ottawa.—Mayor Arthur Ellis, of Ottawa, has given authority for the purchase of serum valued at \$500 from Winnipeg for the treatment of infantile paralysis cases in the city. Mayor Ellis' action came following an interview with Dr. W. T. Blair, acting medical officer of the city, at which the health official recommended the purchase owing to the difficulty of obtaining the serum locally. The number of cases reported in Ottawa to date, is 19, which is regarded as an abnormal situation.

To Test Dirigibles

London, England.—The British dirigibles R-100 and R-101 will be given shed trials during this week. It is expected the R-100 will be launched and taken to Bedford within a month, while the R-101 probably will be launched late in September. One of the dirigibles is to make a flight to Canada and the other to India.

Floods Destroy Persian Town

Tehran, Persia.—A flood which drowned 100 persons and destroyed 5,000 houses, was reported from Fath. The custom house with 3,500 bales of merchandise was damaged and streets washed out in places to a depth of nine feet. The government has authorized immediate expenditure of \$1,000 for the erection of levees.

SERVING AT THE HAGUE

Hon. P. C. Larkin, Canada's high commissioner in London, who was appointed to represent Canada at the reparations conference, at The Hague.

Clips Four Hours Off Record

But "Mauretania" Two Hours Longer Than Bremen On Eastward Crossing

Plymouth, Eng.—The Cunard liner "Mauretania," recently departed by the North German Lloyd liner "Bremen" as the speed queen of the seas, arrived here from New York on her first eastward crossing since she was overhauled in an attempt to crack the "Bremen's" new record.

The "Mauretania" made the eastward crossing in 4 days, 17 hours, 49 minutes, beating her old record by four hours, but falling by two hours to make the time which the "Bremen" made on her first eastward crossing. The "Mauretania" averaged 27.22 knots.

Four Drowned At Stettler

Boat Upset In Buffalo Lake When Storm Broke

Stettler, Alberta.—Hurled into the choppy waters of Buffalo Lake, when a storm broke, two men and two boys were drowned, and another rescued when the small boat to which he was clinging was blown to shore.

The dead are: W. J. Burrell, of Hanna, and his two sons, Ernest, aged 10 years, and John, aged 12 years, and Sidney Steele, also of Hanna. The lad rescued was Harold Burrell, aged 16 years, also a son of W. J. Burrell.

Minister's Daughter Fined

London, England.—Miss Dorothy Thomas, youngest daughter of Rt. Hon. J. G. Thomas, was fined ten shillings in London for causing obstruction by leaving her automobile in St. Paul's Churchyard.

Americans Show Real Friendship

Help Fight Stubborn Fire On Canadian Farm Near Boyder

North Portal, Sask.—Fire supposedly starting from a strawstack on the Franke farm, seven miles northwest of North Portal, spread to the prairie grass and threatened the crops and buildings on this and surrounding farms. Fire fighters were soon on hand and worked into the night getting it under control, but it again broke out and a general alarm was sent out by phone and by the blowing of the fire whistle in Portal, N.D.

Citizens, railway employees, customs and immigration officers, from both sides of the boundary, headed by Sergt. Bradley, R.C.M.P., turned out in full force, leaving the towns almost deserted, and joined with the farmers making an army of 300 men, who fought the flames for five hours, and by backfiring and plying of fire guards prevented loss of crops and buildings except an old barn on the Almond farm. One of the fire-engines from Portal, N.D., was run out to the John Waddington farm in case it might be of use in protecting the farm buildings. The fine spirit shown by the citizens from the U.S. side in helping out the Canadian farmers is highly commended and much appreciated. The dry prairie and the high wind made this one of the most dangerous fires ever known in this district.

Resigns His Position

Hon. C. M. Hamilton Succeeded by Hon. George Spence

Regina.—Resignation of Hon. C. M. Hamilton, minister of agriculture for the province of Saskatchewan, was received by Premier Gardiner, to take effect immediately. Mr. Hamilton has gone to the Head of the Lakes on work regarding his appointment to the Board of Grain Commissioners of Canada.

Hon. George Spence becomes minister of agriculture, according to the announcement made this morning by Premier Gardiner.

Georges Clemenceau III

Paris.—Georges Clemenceau, the aged war-time premier of France was taken suddenly ill at his cottage at Les Sables d'Olonne, on the Bay of Biscay, in Vendee. A doctor summoned from Paris, said, "The Tiger" was over fatigued from writing a book on the war and advised a complete rest. Clemenceau is 83.

Will Visit U.S. Soon

Washington.—Reliable information here says that Ramsay MacDonald, British premier, will sail to U.S. within six weeks.

VARIOUS REASONS ARE GIVEN FOR GRAIN TIE-UP

Montreal.—Wariness of the European buyer; consumption of home-grown wheat in many European countries; the price of Canadian wheat and just "market conditions" were various reasons ascribed in different quarters to the tie-up of Canadian wheat in Montreal and other eastern ports.

Whatever the cause, there are 120 inland ships laid up in the ports between the lakes and the Atlantic and some 1,800 Canadian sailors, it is estimated, are idle; the bins of elevators here are practically full and there is no indication of a break.

While the large steamship concerns are feeling the pinch keenly, with probably half of their ships standing idle, the lot of the small owner, of the man with one or two ships, is even more serious.

The new crop will be on the move very shortly, however, the conditions are unsatisfactory. Local dealers report both the United States and the Argentine as underselling Canada and, while the European buyer must have a certain amount of Canadian grain, he is buying a minimum in the face of this competition, it is stated here.

Canadian seamen, out of employment through the tie-up, are going to the United States in search of employment, declared J. H. Pare, president of the Canadian Seamen's Association.

The present hold-up of grain in the port of Montreal is wholly a question of time. The time will come when either we shall have to meet the view of the European buyer on price, or he will have to meet ours. In the meantime, our products are not moving, said Frederick Heywood, export manager for James Richardson and Sons, Limited. He held that Canadian prices were wholly a matter of market conditions and did not hold the Canadian wheat pool to blame.

Trying To Escape Penalty

Graf Zeppelin Stowaway Jumps From Steamer But Was Recaptured

Hamburg, Germany.—Albert Buschko found it easier to stow away on the Graf Zeppelin for its last flight to Lakehurst than he is now finding it to escape the penalty. He jumped overboard from the steamship "Thuringia" as it entered this port but was soon fished out by a passing lighter and was locked up again on the liner. His stepfather was waiting for him here but was not allowed to take Buschko until the courts have dealt with him.

Assembling Large Seaplane

Buffalo Concern Plans To Use It On Great Lakes

Philadelphia.—A seaplane capable of carrying 50 persons, believed to be the largest in America, is being assembled at the Philadelphia navy yard. It is destined for operation on the great lakes by a Buffalo concern.

It will carry 30 passengers and a crew of 20. It has a wing spread of approximately 45 feet, four air-cooled motors of 450-horsepower each, gasoline capacity of 10,000 gallons.

Speeding Up Mail Delivery

New York, N.Y.—Catapulted from the deck of the North German Lloyd liner "Bremen" at 5 p.m., while 200 miles from shore, the seaplane New York, brought five sacks of mail to the liner's Brooklyn pier at 7:50 o'clock. This speeded the delivery of the 2,000 letters and post cards by about six hours.

Had To Cancel Engagement

Calgary.—Stricken with illness upon his arrival in Calgary, the Right Hon. Lord Hanworth, P.C., K.B.E., master of the rolls of London, Eng., was unable to have a reception at the Calgary Bar Association at luncheon, was obliged to ask that the engagement be cancelled.

Almost one-third of Canada's population is of French origin.

PRINCESS MARY'S ELDEST SON

Hon. George Lascelles, older of two sons of Princess Mary, who is said to resemble his mother very little, but to be the proverbial dark image of his dad, Viscount Lascelles.

Two scholarships at McGill University, Montreal, covering five years' tuition for employees who are minors or minor sons of employees have been awarded by the Canadian Pacific Railway this year. One to C. P. Sturdee, son of E. F. L. Sturdee, assistant general passenger agent and the other to William P. Dunlop, son of John Dunlop of the pension department of the railway at the head office of the company. The scholarships provide for one year's tuition in the faculty of arts followed by four years' tuition in architecture, chemical, civil, mechanical or electrical engineering.

Right Hon. Winston Churchill, Chancellor of the Exchequer in the late Baldwin Government in Great Britain, arrived in Canada recently on the Empress of Australia and made a tour of the country from Montreal to Victoria. He visited Toronto, Hamilton, Niagara Falls, Winnipeg, Regina, Edmonton, Calgary, Banff, Lake Louise, Sicamous, Vancouver and Victoria. He will leave the latter city September 5 arriving at Seattle the same evening. He travelled on the Canadian Pacific railway and steamships during the whole of his trip.

Purchased for a sum in excess of \$50,000, an oil painting of Lord Peterborough by Sir Anthony Van Dyck, court painter to King Charles I., was carried by the Canadian Pacific Express Company by steamer Montrose to Montreal recently, very special precautions being taken to ensure safe delivery. It was bought by A. J. Nesbitt, prominent business leader of Montreal.

Commercial apple crop in the province of Nova Scotia this year will total about 1,300,000 barrels about 420,000 barrels more than last year. The Ontario crop is estimated at 770,000 barrels, up 210,000 barrels over 1923. The British Columbia crop is placed at 3,528,100 boxes, about 15 per cent. less than last year. The raspberry crop is reported good all over the Dominion.

As a result of experiments conducted over several years past officials of the Canadian Federal Department of Agriculture feel assured that two or three varieties of wheat have been at last developed that will resist rust. No names have yet been given the new varieties and it will be two or three years before they can be produced in sufficient quantities for seed distribution.

Hans Andersen, his wife, two daughters and two sons, are the first settlers to arrive for the new Danish Colony in Hants County, Nova Scotia, which is being promoted by the Canadian Pacific Railway Colonization and Development Department. They have gone to the Walton district where they purchased a farm and will go into dairying and hog raising on a large scale.

Since 1921 the total turbine installation in the Dominion has increased from 2,754,000 horse-power to 5,350,000, more than 500,000 horse-power having been installed in 1923. Developments now nearing completion or in active prospect will, on completion, add further two million horse-power within the next few years. In the Prairie Provinces the total horse-power has nearly tripled since 1921.

The Singing Fool

By HUBERT DAIL

Copyright, 1932, Warner Bros. Pictures, Inc.

SYNOPSIS

Al Stone, the singing waiter at Blackie Joe's New York night club, has written a love song to Molly Winton, but she treats him disdainfully because he is only a waiter. Finally he goes to the floor and renders the ballad himself, hoping to touch her heart. Marcus, the famous Broadway producer, is in the audience and offers to buy the song. Molly makes up to Al, so the latter insists that Marcus buy the song. Molly sings the number in one of her revues. Marcus agrees. Grace, the little cigarette girl, is heart-broken when she finds Al is leaving, for she is deeply in love with him. Al and Molly marry and both score successes on Broadway. Once Al visits his old friends at Blackie's and returns to Molly's dressing room in a Broadway theatre. She is with his friend John Perry. Al does not see John surreptitiously press Molly hand as all three leave together.

CHAPTER X.

They descended the elevator from the Manhattan Roof Theatre to the street, where Al looked around for a taxi. John Perry, following, after took Molly arm, guiding her through the dense after-theatre crowds toward the curb.

Broadway was at its best—two wide currents of human beings moved compactly up and down beneath the brilliant canopy of lights from electric signs. These were romance in the crowds, and power, and feeling of dreams carried from the theatres that dotted the Street of Lights. There were shrill cries for taxis, the giggles of girls leaning on the arms of their escorts, the piercing whistle of the traffic cops stopping and starting the never-ending line of motor cars as the lights went from green to red, and back again. A happy, carefree night distinguished the crowd. But Molly turned bored eyes on this fantastic display of modern Babylon as she waited impatiently for the taxi.

"Why doesn't Al hurry and get one?" she inquired impatiently of John Perry.

"Steady, sister. He's doing the best he can," answered Perry.

But now a taxi driver saw Al's beckoning hand and swung up to the curb. They piled inside and the driver sped away toward the palatial skyscraper apartment the fifties where Al and Molly lived. Molly snuggled down between the two men.

"Al," she remarked after a moment, "why do we always have to travel in taxis? Why can't we have a limousine and a chauffeur of our own. Everybody else does."

"Al did not notice the complaining note in her voice. 'I've been thinking that same thing—we can swing it easily now. Tomorrow you can pick one out. What kind?'"

"I was thinking of a Rolls-Royce," said Molly eagerly.

The Campers' First Aid

Minard's is good for burns, bruises, sprains, wounds, and insect bites.

W. N. U. 1900

Al hesitated and Perry gave a little laugh.

"Nothing cheap about Molly," said the racketeer.

"No, that's all right," interjected Al. "Whatever Molly wants she shall have. I feel I just can't do enough for her. Rolls-Royce it is."

They rode in silence until the taxi drew up before the apartment building that meant home to Al and Molly. As they stepped out Perry hung back, as though to say good-night. But Molly turned to him.

"No, John! I want you to come in."

"Of course," agreed Al. "What do you mean by backing out?"

So Perry laughingly acquiesced. Once more the rapidly rising elevator—a magnificently upholstered one this time—which carried them with amazing swiftness to the thirty-fourth floor. Al unlocked the apartment door and switched on the lights. A moment later Molly stood by the window, looking over the blazing lights of the city, gazing down at the specks on the sidewalks that were people. Her cheeks were hot for the moment and she threw open the window so that the crisp autumn night air fanned her face. Al had left the room. John Perry came and stood beside her, saying nothing, but regarding her with burning intensity.

Molly turned and answered his look with a wane smile. "No, John," she said quickly. "No, you don't understand."

"Understand what?"

"What I'm up against. It doesn't concern you. But . . . sometimes I feel I'd like to shoot myself."

She reached out her hand, gave his arm a convulsive squeeze, then dropped it quickly as she heard Al returning.

Al was the perfect host. He drew out a pack of cards, swung open a little drinking cabinet and poured Perry a drink. But when Molly saw the cards she despatched.

"Al, darling, I don't feel like cards tonight. I'm awfully tired. Let's just talk. Or, rather, you two men talk and I'll listen."

Molly listened, but Perry soon saw that she was out of sorts and seemed about to drop off to sleep. He courteously rose to go.

"Well, Al, I'll probably see you tomorrow over in Marcus's office."

He bowed himself out and Al faced Molly.

"Darling, are you ill? You're quite pale now; I have a strange feeling that something is wrong. You haven't been yourself lately."

Molly looked at him steadily, with a dark gleam in her blue eyes. Should she tell him?

"Yes, Al, something is the matter. I'm going to have a child."

She said it deliberately and her lip curled, plainly showing her irritation. But Al, unconscious of her reaction, came swiftly to her, his face radiant.

"Molly, that's—that's marvellous. A child—your child, my child!"

"Your child," Molly corrected him curtly.

"Why do you say that? It's as much yours as mine."

"I say it because I don't want it; Molly's attractive lips were set in a grim line."

"But why, Molly? You're only talking that way because you're tired. You've had to work too hard. Listen, little sweetheart, when it arrives you'll love it; we'll both love it. It's bound to mean the greatest happiness in the world to both of us. Don't you see that?"

"No I don't. I see that it will ruin my career. I'll have to leave the show in a little while and while I'm gone Marcus will get a new ballad singer. People will forget me by the time I'm ready to come back. And how do I know Marcus will give me

back my job? I have the best spot in the show now. Your point of view is just plain selfish, because the whole thing doesn't affect you, but I see the other side."

Al stared at her bewilderedly for a moment. Then he said quietly: "Molly, your nerves are on edge or you wouldn't talk that way. You don't have to be afraid—Marcus will always put you in as his headliner. He knows I wouldn't write another song for him if he didn't. But he wouldn't think of giving you the go-by, anyway. He knows what an attraction you are."

Al paused to regard Molly with a reassuring smile, but she did not see it. Her eyes were fixed sombrely upon the floor.

A helpless look passed across Al's face.

"As for my being selfish," he said humbly, "well, perhaps I am. But I didn't mean to be. I simply adore you, Molly, and it would give me the greatest happiness I can think of for us to have a child. It would make all we have achieved seem worth while."

Molly rose wearily. "I'm going to bed."

Without kissing Al good night or even looking at him, she walked slowly toward her bedroom, her head dejectedly forward. He heard her bedroom door slam sharply.

Instead of going to his own room and undressing Al lit a cigarette and paced the floor. At first he was agitated and worried about Molly. But gradually he argued himself out of the disturbed state of mind. After all, it was natural that she should be upset. Perhaps the strain of her nightly performances was too much for her. In the morning this cloud would pass from her.

He finished his cigarette, put out the lights and went to the drawing room window, whence he could look out on the yellow glow from the city lights.

As he stood by the window, dreaming, meditating, already planning the future of the child that was to be born to him, he heard the tinkle of the phone in Molly's room. Her door must have opened for he heard Molly's faint voice:

"No, no. You mustn't call me."

Before Molly hung up Al thought he caught the word "John." But so he must have been mistaken. John Perry wouldn't be calling up at this hour.

(To Be Continued.)

KEEP CHILDREN WELL DURING HOT WEATHER

Every mother knows how fatal the hot summer months are to small children. Cholera, infantum, diarrhoea, dysentery, colic and stomach troubles are rife at this time and often a precious little life is lost after only a few hours illness. The mother who keeps Baby's Own Tablets in the house feels safe. The occasional use of the Tablets prevent stomach and bowel troubles, or if trouble comes suddenly—as it generally does—the Tablets will bring the baby safely through the crisis. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Making Long Trip

Party From Jasper Covering Historic Fur Trade Route In Specialty-Constructed Canoe

With a specially constructed canoe, "Curly" Phelan, a known guide of Jasper National Park, is taking a party of five Americans from the east on a thirteen hundred mile trip through the waterways of the north country, commencing at Sunset Lake behind Prince George, B.C., and ending at Waterbury, Alberta, on the Athabasca River. The party will cover the historic route of the fur traders by which many of the early travellers into Western Canada, during the first half of the last century, reached the Pacific Ocean.

There are no railroads in the Kingdom of Afghanistan.

Little Helps For This Week

"Thy kingdom come."—Matthew vi. 10.

Thy kingdom come with power and grace.

To every heart of man: Thy peace. Thy joy, Thy righteousness.

In all our bosoms reign.

—Charles Wesley.

Thy kingdom of heaven is not come when God's will is our law; it is come when God's will is our will. While God's will is our law we are but a kind of noble slaves; when His will is our will we are free children.

Philemon had gone forth to see the world, and he had seen it; and he had learned that God's kingdom was not a kingdom of fanatics yelling for a doctrine, but of willing, living, obedient hearts.

—Charles Kingsley.

His Mistake

A fashionable city tailor had taken his daughter into partnership with high hopes of the future upon her graduation from college, but the situation was distinctly not so good. "I'm ruined!" he mourned. "What an idiot I was to let her go into business with me!"

"What's happened, old man?" asked a sympathetic friend.

"Why, the first thing she did was to change the name to 'Ye Old Clothes Shop.'"

Might Congest Traffic

A western town is strong for safety first, having a bylaw which reads as follows: "When two cars come to a crossing both shall stop and neither shall start until the other is gone." If this is carefully observed, there will be few collisions, but some slight traffic congestion may result.

Minard's Liniment for aching joints.

A Valuable Seed Pod

Price Of Rare Orchid Is Estimated At \$150,000

Probably the most valuable flower seed pod in the world was recently on display at the Chelsea Flower Show, London, England. A single flower sprang from one of the seeds sold for more than \$1,500, and others sold for \$1,000. It is estimated that the entire pod with seed is worth \$150,000. The pod is the fertilization of a rare orchid, the *Miltonia Armstrongii*.

A commercial fertilizer plant to cost \$7,000,000 is to be built at Trail, British Columbia.

Higher education in Canada is carried on in 23 universities and 85 colleges.

WOMAN SO SICK COULD NOT WORK

Helped by Taking Lydia E. Pinkham's Vegetable Compound

Grainland, Sask.—"I am glad that I heard of that good Lydia E. Pinkham's medicine and it will not be without it again. I was so sick that I could not work at all and could not see on the machine. My aunt told me of Lydia E. Pinkham's Vegetable Compound and now I am telling all of my friends how good it is and I will answer all letters I get from women."

—MRS. MARY SCHULTZ, Grainland, Sask.

Stony Plain and District.

IT PAYS TO PAY CASH.

Stony Plain's Wednesday half-holiday is over for this season. Monday next, Sept. 2, being a public holiday, all the places of business here will be closed.

Miss Jean Macmillan was a week-end visitor in Stony.

Miss Laight of Kapasiwin is the guest, this week, of Miss Olwen Moses. The latter returned on Saturday from a vacation spent at Kapasiwin Beach.

Mr and Mrs E C Schmidt and family were Saturday evening visitors in Stony, on their way to Jasper Park by motor.

Rev Boettcher, Edmonton, was a Saturday visitor in Stony.

Teacher Rosnan came up from Bruderheim on Monday.

Mr and Mrs Esmonds of Edmonton were visiting for a few days in Stony with Mr and Mrs C J H Lory, Mrs Lory being a sister of Mrs Esmonds.

Mr G Carmichael came up on Monday from Ledut, where he has been writing insurance during the holidays. Glen may take a school in Peace River district.

Mr and Mrs James Christie had as week-end visitors Mr and Mrs James Yeomans, of Vancouver. The couple and their son had been visiting relatives in the East, and after spending a few days here, they left for their home in Vancouver.

A Baby Clinic was held yesterday afternoon in the Town Hall, under the auspices of the nursing branch of the Department of Public Health.

A construction unit from Calgary Power Co. is here this week, erecting the poles and stringing wires. Another unit was here on Monday, giving the local lighting plant the once-over.

Inga Councillors meet next on Friday, Oct. 4, in Stony Plain.

A delegation from the local Moose lodge motored to Onoway Tuesday, as there are prospective members in that town. If enough there join the Order, a lodge will be instituted.

The Editor will appreciate it if the pupils of grade eight up will hand in their marks on the Departmental exams, to The Sun office, as we have no other means of obtaining these.

Farmers having chickens to sell should bring these to P Henkel, phone 58.

Edmonton Beach.

Mr Jack Barry has arranged for a big week-end celebration, commencing Saturday and continuing to Monday next, Labor Day. Saturday night's dance; a concert Sunday evening, followed by a Midnight Frolic; and a ball game Monday afternoon, is included in the program.

Wednesday seen a large-sized crowd at the Beach, that being the last of the Wednesday half-holiday.

Fishermen are still having good luck with the fish in the lake. Several good strings being secured this week.

Church Services

Services will be held in St Philip's Church at 9 a.m. on Sunday, Sept. 1.

A Lutheran service in English will be held in Stony Plain next Sunday at 7:30 p.m., by Rev. Osterman.

Service at United church Sunday evening at 7:30; Rev G A Sauder.

Fire in Carvel District.

About 4 a. m. on Friday last the log house belonging to Peter Hassay, on the Komchee farm, was discovered to be on fire. Mr Hassay had left for Collinton the day before, to work, and the only inmates in the building at the time of the fire were Hassay's housekeeper and Miss Jennie Washlyshin. They had been awakened by the smoke, and hastily donning their garments, ran for help. A few neighbors responded and succeeded in quenching the blaze, but not before it had burned a lean-to used as a chicken coop and part of the roof.

As there had been no fire in the house since breakfast time Thursday, there is a strong suspicion that the fire was of incendiary origin, in view of the fact that a threat had been made a short time ago that this would be done.

It will be remembered that Peter was the storm center of a slight disturbance, on a recent Sunday, near the Greek Catholic Church.

It is just a year since John Washlyshin lost his stable and the contents by fire, which was thought at the time to have been the work of an incendiary.

Mr Hassay carried an insurance with John Berry.

Carvel Clippings

A local man appeared in the Onoway Court last week and was fined \$5 and costs for an infraction of the V & H T Act.

Carvel school opens Tuesday next, Sept. 3, with Miss Farina as teacher. Miss Farina has been spending a vacation in Vancouver.

Mike Reienisky is in very poor health at present, being confined to his bed.

Mose Savard is expected home this week from an Edmonton hospital, where he had been operated on for appendicitis.

Death at Mewassin.

On Sunday, Aug. 25, there passed to his reward a respected resident of Mewassin district in the person of Mr Cyril Faucet. Deceased, who was in his 74th year, was preparing to come to Holy Mass when he was seized with a heart attack and passed away before medical assistance could be summoned.

He leaves to mourn his loss besides his wife, one son, Eugene; and four daughters, Mrs Blanche Moldenhauer and Mrs Adolphus Mittonelle; Mewassin; Mrs C Burton of Waterways; and Mrs M C Miller, Portland, Oregon.

The funeral, which was held on Monday from St Teresa's church, Carvel, was largely attended. Services were conducted by Rev Father Keenan of Spruce Grove. R I P.

Spruce Grove News

Mr and Mrs R Ferguson Smith entertained a number of people at their home south of the Grove, on Sunday afternoon.

It is probable a few of the farmers who have neglected to comply with the provisions of the Noxious Weeds Act will appear in Court, to answer for their neglect.

McKean's meat emporium and T-bone headquarters has had a new sign placed over the front, the work being executed by an eminent Scotch painter.

Walter Brox went up with a motor party to Stony on Saturday evening, and Didn't Have an Accident!

The Grove school opens on Tuesday next, with a new staff of teachers.

Card of Thanks.

Mr George Rufus Ashmead and family wish to express their appreciation and sincere thanks for the kindly aid and sympathy given them in their sad bereavement.

Open Seasons for Game

Following are open seasons for game—
Ducks and Geese—Sept 15 to Dec 14th.
Hungarian Partridge—Oct 1 to Nov. 30.
Prairie Chicken and Partridge—No open season.
Deer—Nov 1 to Dec 14
Otter, Nov. 1 to May 1.
Beaver, No Open Season.
Muskrat—Between North Saskatchewan and Tp. 91, March 15 to April 15
Game Licenses can be had at Sun Office, where copies of the Game Act can be seen.

Banff Festival Artists

Herbert Hewetson

Stanley Hoban

Mary Frances James

These artists will appear at the Banff Scottish Music Festival to be held at the Banff Springs Hotel, August 30 to September 2, sponsored by the Canadian Pacific Railway. Mary Frances James, soprano, will take a leading role in the ballad opera by Dr. Healey Willan woven around the story of Bonnie Prince Charlie and Flora MacDonald. Stanley Hoban, Winnipeg baritone and Herbert Hewetson, tenor, will be among the assisting artists.

In addition to the Music Festival there will be the Highland Gather-

ing of pipers from most of the Canadian Scottish regiments who compete for the E. W. Beatty Trophy, the winner of which represents the outstanding piper of the year in Canada. Further, there are Highland Games staged such as tossing the caber and all the other sports which feature the great annual meet in Scotland. The Festival is in short a getting together of the Scottish race from all over Canada and is patronized by visitors from all parts of the North American continent.

Ford

The Finest Car Made at a Low Price.

Back of the new Ford are manufacturing and production methods, as unusual as the car itself. Without these it would be impossible to give you the value that is in the New Ford. Because of them it is unquestionably the best motor car that can be made at a low price without sacrificing quality anywhere on it.

We make immediate deliveries on all models.
